

# French-Argentinean Workshop on Heterogeneous Catalysis

11-13 April 2023  
Santa Fe, Argentina

The Institute of Research on Catalysis and Petrochemistry, "Ing. José Miguel Parera", INCAPE (CONICET - UNL), organizes the French Argentinean Workshop on Heterogeneous Catalysis. It will be held within the framework of an international cooperation project between the groups led by Dr. Florence Epron (Institut de Chimie des Milieux et Matériaux de Poitiers, IC2MP, France) and Dr. Carlos Pieck (INCAPE, Argentina): "International Research Project, OLECAT: Catalyseurs pour la production d'olefines".

The entire scientific community is invited to participate, from April 11 to 13, 2023 in Santa Fe, Argentina

## OBJECTIVES

To promote the updating of scientific-technological advances in the fields of heterogeneous catalysis and engineering.

To favor the generation of new international cooperation agreements.

## MAIN TOPICS

1. Biomass Conversion to Chemicals, Hydrogen, Syngas and Fuels
2. Activation of Small Molecules ( $N_2$ ,  $CO_2$ ,  $CH_4$  and others)
3. Catalyst Synthesis and Characterization
4. Environmental Catalysis
5. Electrocatalysis and Photocatalysis
6. Engineering and Catalytic Processes
7. Catalyst Poisoning and Deactivation
8. Catalytic Technologies for Fossil Fuels

## ORGANIZING COMMITTEE

Chair:

Dr. Carlos Pieck

Vice Chair:

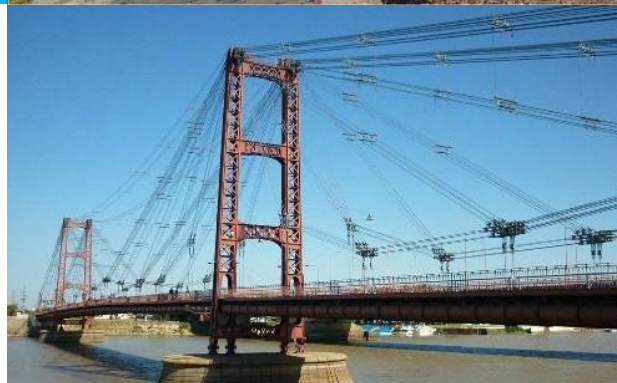

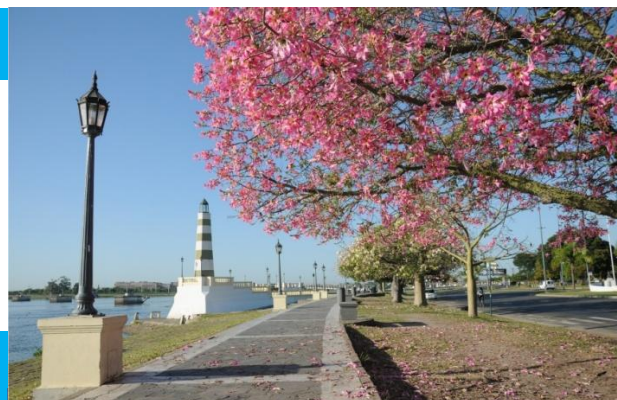

Dr. Cristina Padró

Coordinators:

Dr. Sonia Bocanegra  
Dr. Silvana D'Ippolito  
Dr. Florence Epron  
Dr. Albana Marchesini  
Dr. Vanina Mazzieri  
Dr. Amparo Sánchez  
Dr. Ana Vicerich

Collaborators:

Dr. Adriana Ballarini  
Dr. Viviana Benitez  
Dr. Paula Brussino  
Dr. Agustina Dalla Fontana  
Dr. Catherine Especel  
Dr. Cristhian Fonseca  
Dr. Claudia Neyertz  
Dr. Richard Pujro  
Dr. Julieta Stassi  
Dr. Natalia Veizaga  
Dr. Sol Zanuttini

I N C A P E

Looking forward to your participation. We thank you for the diffusion of this newsletter.
